

Organizers' Comments: Thank you all for coming. Blessed with beautiful weather, many seem to have enjoyed themselves. It was especially gratifying to see several staying behind to chat afterwards. Stanley Park has hardly a technical area anywhere but as a sprint-O venue it's ideal and leaders' times for the combined distance of 4.3k were impressive. As those present will be aware, the day was not trouble-free. In the seconds between the third and fourth competitors finishing the Prologue, a nifty teenage vandal stole the finishing box - satisfying no doubt for him but a costly act for us - and later two gripples refusing to ungripple saw us back on Wednesday morning with a hacksaw. Our thanks go to Sophie Roberts who did the computing and conjured up a spare finish box, to Rowena and Chris for a lot of help and advice and to the many, including two visitors from other clubs, who helped search for the missing items and collect in controls.
